STRIKERS AND POLICE IN BATTLE

(Associated Press.)
PERTHAMBOY (N. J.), Nov. 25.—Following a pitched battle between 700 strikers and twelve deputies today at the factory of the National Fireproofing company at Keasboy, near here, in which six strikers were shot down, Governor Fort dispatched four companies of state national guards at Trenton to the scene. Tonight the streets are patrolled by 250 soldiers.
Two of the wounded men are dying and four others painfully hurt. A feeling of intense excitement prevails, as the strikers declare the deputy sheriffs were not justified in firing upon them. For two days there has been rioting at Keasboy and a number of manufacturing towns along the Raritan river. Two weeks ago the men employed by the Raritan River Clay company went on strike for higher wages. They marched to the plant of the Perthamboy Firebrick company and induced the men there to go out. On each succeeding day the men increased in numbers and marched to other towns to induce employees to leave their work. The strikers are nearly all foreigners and says they were given to understand before the election that if Taft was elected their pay would be restored to \$1.50 per day. It is now \$1.30. The officials of the factories deny that such promises were made.

Arab Pilgrims Who Were on Board Steamer Sardinia Perished Within Sight of the City of Valetta.

(Associated Press.)
VALETTA (Island of Malta), Nov. 25.—A terrible disaster in which more than 100 persons lost their lives, occurred at the entrance of this port this morning, within sight of the whole city, which was powerless to give aid.
The British steamer Sardinia, of the Ellerman line, hailing from Liverpool and bound for Alexandria, with a crew of forty-four Englishmen, eleven first-class and six second-class passengers, and nearly 200 Arab pilgrims aboard, caught fire and within a few minutes was a roaring furnace, surrounded by clouds of smoke through which the flames burst upward to a height of 200 feet from an explosion in the hold. So rapidly did the fire spread that the frantic efforts of the crew to operate the fire apparatus proved useless, and it seemed but a moment before the upper works and masts crashed upon the deck, while the ship's boats were crushed by falling debris, or quickly burned.
Assistance was hurried to the burning vessel from all the warships in the harbor and from the shore, but the work of rescue was greatly impeded by the strong tide running.
Among the Arabs there was a panic that could not be controlled, and many who were too terrified to jump overboard were burned to death and others casting themselves into the waves were drowned. The captain, as well as the crew, acted with admirable courage, serving out life preservers to the last and working the pumps. Captain Charles Litter stood at his post to the last and perished in the flames. First Officer Frank Watson, all three engineers and eighteen of the ship's company and two first-class passengers are missing. The Sardinia was finally beached on the rocks at the entrance of the harbor. She will be a total loss.

(By Associated Press.)
NEW YORK, Nov. 25.—The eve of a holiday was looked to for some closing upon outstanding speculative accounts. Thereafter the resisting of the power market weakened and lower prices were restored.
Southern Pacific was carried to a new record price—at 120 1/2, and Union Pacific sold at the highest price of the present year, at 184 5/8. Bonds were strong.

CHICAGO (Nov.), 25.—That the counterfeit \$5 bills which have been freely circulated in Chicago, St. Louis, Dayton, Ohio, Cleveland, New Orleans, Minneapolis and other cities in the last few months were manufactured by an organized gang operating in Chicago and that this gang is practically broken up was said by the United States secret service authorities to have been determined by a number of arrests. ATTELL MET A DEFEAT

(By Associated Press.)
LOS ANGELES, Nov. 25.—Abe Attell, the fast undefeated featherweight champion of the world, met more than his match tonight in Freddie Welsh, the English lightweight champion. Attell never had a chance from the beginning of the fight to its finish. So outclassed was he by Welsh that he appeared able to show but little of his old-time fight. There was much infighting in almost every round, and in this alone did Attell show to any advantage.

THE DEATH LIST WILL EXCEED 40

(Associated Press.)
LITTLE ROCK (Ark.), Nov. 25.—Relief is being hastened to Arkansas towns which Monday night were reported destroyed by tornadoes, and this afternoon the stricken district will be in communication with the outside world, as the telegraph companies have had men repairing the damage since early today.
Late reports confirm former statements that damage amounting to hundreds of thousands of dollars to property over the state had been done and that the loss of life will exceed forty. It is impossible as yet to secure the names of the dead.
One of the tornadoes started in Missouri, going south through Terrell, Newton and Johnson counties, the heavy wind abating when the Arkansas river was reached. It swept a path through these counties a half mile wide, almost totally destroying Bixley, Murray, Low Gap, Ozark, Dale, Boston, Judeau, Trath, Omega, Dry Fork, Dinsmore, Parthenon, Moseville, Limestone, Red Fork and other hamlets.
The tornado split at the head of the Hulberry creek, a portion going through Tull and Smedley into Ozark, where a number of houses were blown down.
The main storm almost wiped out Piney, where the largest loss of life occurred. There are probably thirty dead at that place, Kneoksville and London.
A second tornado came from the direction of Louisiana, and traveled north through Lafayette, Pike and Hempstead counties. Had this storm continued forty miles further there would have been a junction of the two tornadoes. Lewisville, Lodi, Ozan, Murphysboro and other towns are reported to have suffered severely, with scattering loss of life.
